Dear David,

Thanks for your letter and the tapes.

Luckily, in today's mail I also got transcripts of the Posner/Nonseko one and of Wecht and Posner.

I heard that June Oswald was on one morning and I was told disagreed with him.

I'll give the tapes to the college so the students can use them once I've no need fof them. My work is going fairly rapidly and I think the transcripts I did not know would be available are all I need.

Perhaps I did not understand what you intended but it is not "the effort to construct a record of " my work.

It is an effort to construct a record of the event and all possible relating to it then and ever since.

Good luck with your poject, thanks for anything else you may see that might be of interest, and best wishes in general,

Harold
